

Modernization Kit No. 4750508  
**Load and Discharge Conveyors**

Barry-Wehmiller now offers replacement Load and Discharge Conveyors for your Pasteurizer. These high quality, durable units serve as a direct replacement of your existing load and discharge conveyor, interfacing with the Pasteurizer and your conveyor layout. The side bodies are made of closed-style polished stainless steel for a sanitary design. The chains ride on UHMW wear strips with machined chain profiles and interlocking L-shape. The Pasteurizer interface conveyor is attached to the Pasteurizer with stainless steel brackets. The floor supports are fabricated from square polished stainless steel tubing, with self-leveling non-metallic feet. Each unit comes with our standard warranty and is guaranteed to interface with your existing conveyor system and Pasteurizer.

Please call you Barry-Wehmiller Customer ServiceDepartment for details.
